

Web Design Lessons 4-7

Lesson 4 - Add an unordered list to your Web page:

1. Using your text editor, open home.html. Below the line “<p> *type the 5 sentence description of your business here*</p>” insert the code as follows :

```
<p>type the 5 sentence description of your business here.</p>
<ul style="list-style-type: square">
  <li>list one type of service or product</li>
  <li>list one type of service or product</li>
  <li>list one type of service or product</li>
  <li>list one type of service or product</li>
  <li>list one type of service or product</li>
</ul>
</body>
```

2. Save your changes and view your work in browser. Remember to also update your homebu.txt.

Lesson 5 – Add an horizontal line:

1. If necessary, use your text editor to reopen home.html. Insert the code below directly under the <body> tag.

```
<body>
<hr style="color: black; height: 3; clear: right"/>
<h1 style="text-align: center">Your Company Name </h1>
```

2. Save and view your changes. Remember to also update your homebu.txt.

Lesson 6 - Add a background, font color and font family:

1. If necessary, use your text editor to reopen home.html. Within the body tag insert the following code:

```
<body style="color: rgb(139,62,47); background:
rgb(150,205,205); font-family: georgia"/>
<hr style="color: black; height: 3; clear: right"/>
```

2. Go to <http://docs.keypoint.com.au/samples/rgb.txt.html> and select a color of your choice. Remember to use commas between numbers and not semi colons.
3. Save and view your changes. Remember to also update your homebu.txt.

Lesson 7 - Add a background and a font color within a heading:

1. If necessary, use your text editor to reopen home.html. Within the h1 tag insert the code below. Save and view your changes.

```
<hr style="color: black; height:3; clear: right;" />
<h1 style="text-align: center; font-size: 4em; color:
rgb(139,62,47); background-color: rgb(238,221,130) ">Your
Company Name </h1>
```

2. Go to <http://docs.keypoint.com.au/samples/rgb.txt.html> to view rgb colors. Try on several colors for both background and font. Remember to use contrasting colors for best results.
3. Save and view your changes. Remember to also update your homebu.txt.
