Me in 30 Seconds

I am dependable and responsible with everything I do. I look at work as an exciting challenge ever day. I am trustworthy, loyal, helpful and friendly. I am a team player. My work ethic is very good. I enjoy whatever task is put before for. I will complete it to the best of my ability. I enjoy education, decision making and applying skills I have learned in order to complete my job.

Career Goal

I would like to train and supervise people with the company I work for. Teaching employees to understand their job and help the company to mature and be profitable. I would like to continue to educate and invest my effort with a company, so that in five years I could make important decisions for the company. I have set goals of continuing my education. Knowledge for the twenty first century is very important. I will apply the information obtained from education, with the experience I've obtained through years of work. I have planned to complete this goal by the fall of 2010. All of this combined will give me the edge of being an excellent employee.
