

#GiveThanks for my Testimony of Jesus Christ, Our Savior, Lord, Redeemer and True Source of Divine Inspiration

I am grateful that I have religion to my life which has improved my life significantly over the years. My membership in The Church of Jesus Christ of Latter-day Saints has helped me understand that it is incredibly important how you live your life. I have experienced wonderful opportunities along with many challenges and limitations and come to appreciate the window and inspiration of holy scriptures, especially the Book of Mormon, which is another testament of Jesus Christ, because the truths of Christ it teaches have strengthen my faith and give me hope.

The promise of eternal life motivates me and guides me. Families are intended to help God's children learn and grow in righteousness. Bringing generations together through temple ordinances is central to God's plan for eternal happiness. I am grateful for the joy this has brought in my life and family. For the past week, members of the Church of Jesus Christ of Latter-day Saints have been led by its President, [Russell M. Nelson](#), in a 11:46 minute video clip to use social media to express our Thanks for those things that are most precious to us which directly relate to my temple & family history endeavors.
