Kuzmich Family History Ancestral Roots: Paternal and Maternal

The following maps represent villages in Paternal/Maternal ancestors in Poland, Slovenia and Ukraine where my ancestors came from. Give me time to validate the authenticity of the maps of the two villages in the Czech Republic for the origin of our Dlugi ancestors before 2022. My family is presently compiling information about each village with emphasis on their local history and cultural things to share with you. Villages **encircled in red** are the where these villages are located. Note: longitude and latitude coordinates are also provided for your convenience to view in Google Maps where they are located within each country in Eastern Europe. When these local histories are completed, they will be posted at: <http://www.kuzmich4.com/Family Roots/Kuzmich Family History Ancestral Roots2.pdf>

Here are the villages included in this file in the following order. I will bookmark all 15 Eastern European village links that are presented below so you don't have to scroll down for them. The table of contents will appear first, for a more traditional table of content setting, go to the top of the jumped page for view all the villages, countries and the surnames of my ancestry in a traditional two-column table format.
